

INTEGRA FLUSHWALL INTERIOR DOOR SYSTEM PRODUCT WARRANTY

- DORR Industries provides a 1-year warranty against all manufacturing defects of Integra system components and against the warping of doors supplied.
- The warranty is limited to the replacement of the part(s) with shipment by DORR Industries to the original customer of the product.
- The warping guarantee will only apply to a warping of greater than ¼" on a door supplied by DORR Industries.
- The most recent WDMA standard method will be used to measure the degree of warping of a door.
- No warping warranty applies on doors higher than 96".
- DORR Industries guarantees the dimensions of door(s) and frame(s) shipped per confirmed order within a tolerance of 3mm.
- Any claim must be made within 48 hours of receipt of the product(s) ordered and before the installation or finishing of the said product(s).
- This warranty, offered to the original purchase, is non-transferrable.
- DORR Industries reserves the right to make improvements and changes to its product design. In this case, DORR does not undertake to modify the products already delivered.
- Products installed are covered by the warranty for the replacement of defective parts only plus transportation to the original site. The warranty does not cover on-site labor involved with replacement of the defective parts.
- The warranty excludes coverage of damages arising from or resulting from improper installation, abuse, neglect, vandalism, impact from any foreign object, structural movement, distortion or failure of the foundation walls.
- The warranty excludes coverage of damages originating or resulting from disasters such as: fire, heat accumulation and excessive temperature, explosion, exposure to chemicals.
- The warranty excludes coverage of damages originating or resulting from climatic conditions such as: tornado, hurricane, earthquake, flood, landslide, the effect of pollution, mold, or any other natural disaster.
- For all accessories supplied, other than frames and doors, the accessory manufacturers' warranties will apply.
- Door storage is required free of direct contact with sunlight or in areas of intense heat, cold or high humidity. For storage, the doors must be stacked horizontally on a level surface, with material underneath of either cloth, sheets of plywood or cardboard. Do not place them vertically against a wall or other structure.
